

# AVIOCHEM

**AVIOCHEM for interiors**

## From 1951, reliability, competence and kindness servicing aerospace.

We team-up with our customers in every phase of the project: from technical analysis, to prototyping up to the final realization. We partner with the most relevant players in the industry to transform every idea in a solid result. Our strength is a technical approach, operational and pragmatic based on competence, innovation and constant attention to quality.

We offer in-field technical consulting, operational consulting and a full service which includes stock and obsolescence management and AOG. We guarantee worldwide deliveries and a dependable and on-time after sales service.

Our product range spans water based paints and coatings, ecological and customizable, up to specific liquids for aerospace application like the blu liquid for toilets.
